

# Honeycomb (Arena) Blinds

1. **Measurement of Honeycomb blind.** All our Honeycomb blinds will be manufactured to the width and drop you specify. The overall width that will be manufactured will be the width between the outermost sides of the Headrail. If you are recess fitting, we suggest you take off 3mm of the tight width measurement. You do not need to take anything off the drop.
2. **Honeycomb Design Options.** We will be manufacturing seven (7) styles. These are, Standard Rectangle, Day-Night Blind, Top-Down/Bottom-Up Blind, Two on one Headrail, Skylight, Angled and Stationary Arch.

The pricing tables are for the Standard Rectangle blinds only using the classic control system. Pricing for the other styles is as follows:

Day/Night	-	Standard Rectangle pricing for each fabric type
Top-Down/Bottom-Up	-	Easy Rise Rectangle pricing plus 20%
Skylight	-	Cordless Rectangle pricing plus 40% (side guides extra \$35.90/mt)
	-	** SKYLIGHT BLINDS ONLY COME IN COLOUR ASPEN WHITE
Stationary Arch	-	POA
Angled	-	POA

3. **Honeycomb Control Systems.** You have a choice between the Classic System, Easy Rise System the Cordless System, and AMP motorised. The Classic System has a constant cord length to avoid long, dangling cords. The Easy Rise system has an endless cord system(**which must be used with a cord tensioner**), with a geared clutch, for a light and smooth operation. The Cordless system has no visible cords, for a clean uncluttered look that can be raised and lowered from the bottom bar. Lastly the AMP motorized system that can be powered by batteries or an 18v transformer. **Please add \$52.76 for an extendable pole to operate the cordless system if required.**
4. **Honeycomb Sizes.** Minimum Blind width for all systems excluding AMP is 200mm. The maximum blind width we manufacture, recommend and warrantee is 3660mm with the (Classic & Easy Rise systems) & 3040mm with the Cordless system. The maximum blind drop is 2140mm for the Cordless, 3040mm for the Easy Rise and Classic. **Please refer to the Limitations Chart for more detailed information.**
5. **Fabrics.** All our available fabrics are made from either non-woven or woven polyester that will not fray or fade. We recommend and use only the Turnils range of 20mm single cell and 20mm Double cell construction. There are 8 Fabric ranges to choose from within the Turnils Arena Honeycomb Shades swatch which is available through NBS. The range has single and double cell fabrics in Semisheer, Translucent and Blockout.
6. **Headrail and Bottom Rail.** There are Eight(9) colours for both Headrail and Bottom rail in 20mm except for SKYLIGHT blinds(Aspen White only). These are Black, Grey Pail, Imagine Clay, Lucia Blue, Mimosa, Moonlight Snow, White Feather, Gray Flannel & Dove Grey. This headrail has a smooth profile and no longer accommodates a slat insert on the front.
7. **Safety.** Each blind is supplied with a cord tensioning device which is designed to tension the cord in compliance with child safe regulations and is crucial in allowing the blind to operate correctly.

# Arena Honeycomb Shades

*Save energy in style*

The art of  
energy efficiency

# Sophisticated, functional & energy efficient

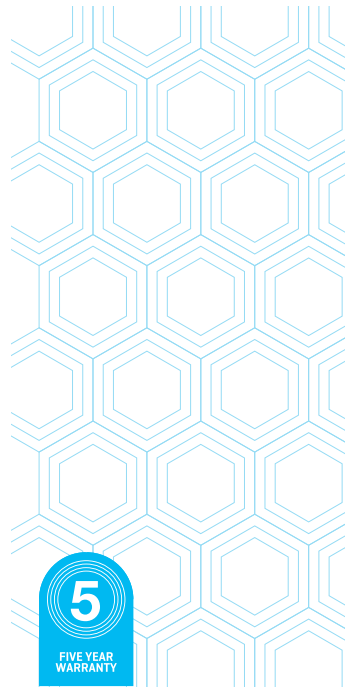

Perfect for any size or shape window, Arena offers insulating properties to control room temperature without compromising on style.

A variety of fabric opacities and design options, cater to individual needs for light control and privacy.

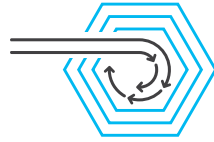

# Why Choose Arena Honeycomb Shades ?

## Energy Efficient

Tested and proven to help you save on your energy costs – better for your pocket and the environment.

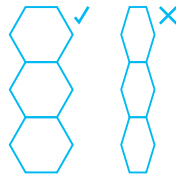

## Child & Pet Safe

Go for one of our cord free control options such as Cordless, Lift and Lock or Momenta, for the ultimate child safe solution.

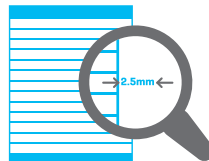

## Smart Construction

Specially designed with Perma-Cell technology preventing stretching, cells remain looking and performing at their best.

## Minimal Light Gaps

The compact headrail delivers light gaps as low as 2.5mm in recess fit, compared to 10-15mm for most roller blinds.

## Advanced Operation

Versatile solutions for every space or shape, including skylights, so every use is an effortless experience.

## Quiet Achiever

Sound energy is absorbed within the cell, dulling exterior noise by up to 55%<sup>^^</sup> with 20mm Translucent Fabric.

## Healthier Indoor Air

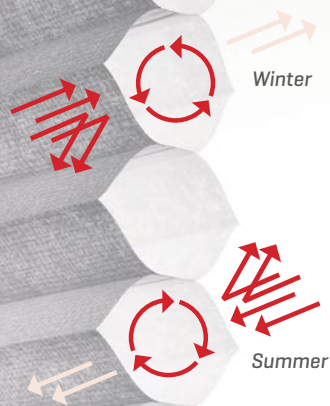

Fabrics are anti-static & dust repellent making them low maintenance. Arena is GREENGUARD<sup>®</sup> certified for healthier indoor air quality<sup>~</sup>.

<sup>^^</sup> The scale for sound absorption is in a range from 0.00 to 1.00 where 1.00 means total, 100% total absorption of sound. The scale can be equated to percentages – for example a value of 0.35 would indicate approx. 35% sound absorption. Source: Hunter Douglas USA Reference Guide April 2010.

<sup>~</sup> GREENGUARD<sup>®</sup> certified provides assurance that Arena contributes to healthier indoor air quality in your home by meeting stringent standards for low chemical emissions during product usage.

# Save on your energy costs with Arena's superior performance<sup>+</sup>

Arena's clever cellular design traps air which helps to insulate the room.

Arena Honeycomb Shades have been tested and proven to help reduce the cost<sup>+</sup> of heating your home.

Enjoy warmer winters and cooler summers as Arena slows down heat transfer through the window for year round comfort.

The back of all Arena honeycomb fabrics is white, creating a uniform streetside appearance. The white backing also provides light reflection and UV protection, which reduces heat passing through the shade into the room.

## MEDIUM

Up to 17%\* in energy savings with Harlem 10mm Single Cell Translucent fabric

## HIGH

Up to 26%\* in energy savings with any Arena 20mm Single Cell or Essence Double Cell Translucent fabric

## VERY HIGH

Up to 28%\* in energy savings with Harlem 10mm Single Cell Blockout fabric

## EXCELLENT

Up to 32%\* in energy savings with any Arena 20mm Single Cell Blockout fabric

\* Savings are based on the installation of fully-recessed, reveal-mounted Arena fabric as specified above in an average home in Sydney, compared with the House Energy Rating standard of Holland Blinds from AccuRate, in that home. These calculations have been modelled by an independent third party. Savings will vary based on window type and installation.

# Child Safety ChildSafe

With child safety an important consideration, you can put your mind at ease knowing there are a variety of solutions available in the Arena range.

For the ultimate child safe solution select a cordless operating system such as our Cordless, Lift & Lock or Momena systems which feature no loose operating cords.

For more information on these systems see our 'control options' on page 14.

## Child Safety Tips

Make it safety first around your windows by always ensuring:

- Items that a child could climb on are away from windows that have cords or chains. This also includes placing cots, beds and chairs away from windows.
- Cords are secured as installed by looping around the cord cleat at all times.

All Arena corded window coverings come with child safety operation warning tags and safety cord cleats for holding operating cords.

## Selecting your perfect Arena System

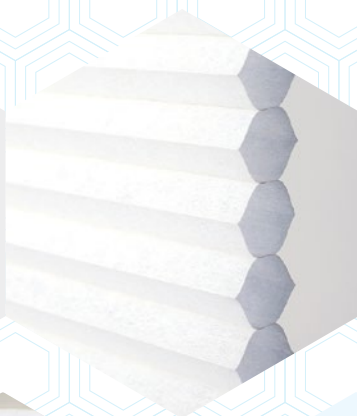

Bring your dream room to life with a new Arena Honeycomb shade made and installed to your exact requirements.

*In just a few easy steps you can transform your window into a stylish, energy efficient space to enjoy all year round.*

## Choose your Cell Size

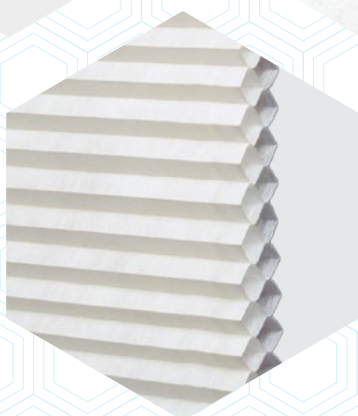

### 20mm Single Cell

Larger cell for greater energy efficiency with up to 32%\* savings on your heating costs.

### Double Cell

Save up to 26%\* on your heating costs with a unique styling of a side-by-side double cell shade.

## Choose your Fabric Opacity

### Sheer

Gently filter light while still enjoying the view through the windows.

### Translucent

Softens harsh light while maintaining privacy and protecting your furnishings from UV fading.

### Blockout

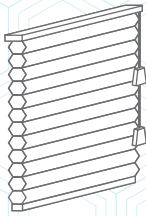

Provide excellent energy efficiency and ultimate light and privacy control.

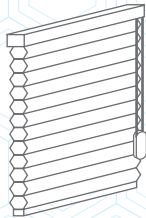

## Choose your control option

Start by selecting your operating system which controls the raising and lowering of the shades.

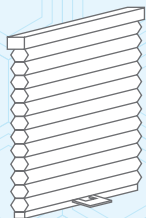

### Classic Cord Lock

Slimline hardware for an unobtrusive appearance when shade is fully raised. Operational cords are neatly secured by cleats.

### EasyRise

Featuring a continuous cord loop operation with a geared clutch, the EasyRise system offers smooth operation for lifting even the largest shades.

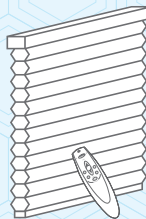

### Cordless

Raises and lowers shades at the bottom bar. Provides an uncluttered look and is the ideal solution for child safety.

### Child Safety

Consider a cordless option for a child and pet safe solution.

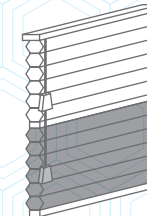

### AMP Motorisation

A motorised control system allowing shades to be operated with a touch of a button.

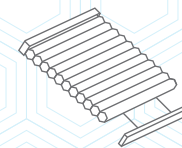

## Choose your design option

Depending on where your blind will be installed, you can choose a design option that's perfect for your needs.

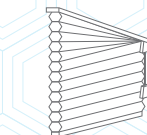

### Day-Night Blinds

Enjoy the best of both worlds when combining a sheer and blockout fabric on the one shade.

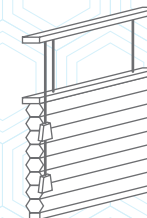

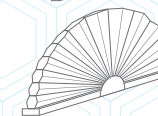

### Skylights

Arena Honeycomb Shades are ideal for skylights and sloping or hard-to-reach windows. Depending on fabric selected, a complete blockout solution can be created.

### Specialty Shapes

Honeycomb Shades are available in a selection of specialty shapes, for arched and angled windows.

### Top down/Bottom up

Allows the shade to be raised from the bottom as well as lowered from the top, for complete light and privacy control.

# Fabric Collection

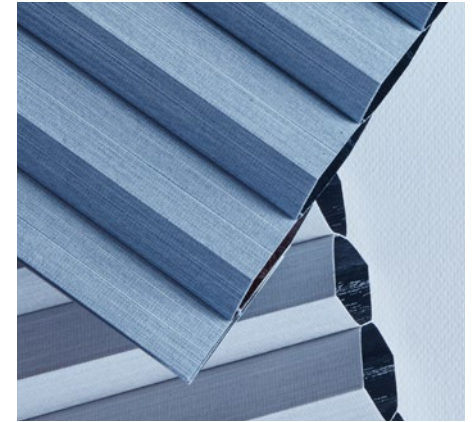

Designed for style and performance.

When selecting the right fabric for your space, remember to consider:

How much light do you want to filter in?

Do the blinds need to provide a high level of insulation?

Will the blinds be a focal point in your space or coordinate with your furnishings?

# Upgrade to Automation

Take your blinds to the next level with the Momena motorised system.

With no complicated wiring necessary, Momena motorisation is easy to install, operate and maintain.

Clever wireless technology allows the shades to be operated with the single touch of a button.

- Momena is a fully motorised control system that offers the ultimate in child safety, convenience and ease of operation.
- Perfect for hard-to-reach windows
- Quiet motor operation, powered by a choice of slimline battery pack with standard AA alkaline batteries. Alternatively, use DC Power Supply which plugs into a standard power supply outlet.
- One touch operation via infrared/radio remote control or wall panel.

## Why Wait?

Speak with your Arena Retailer to help design your Arena Honeycomb Shade, built in Australia and fully installed by a trained professional.
