## TRADING TERMS

**1. Orders:** Orders on the appropriate Order Form are acceptable only via email.

**2. GST:** All prices listed exclude GST.

**3. Prices:** Prices are subject to change without notice. All prices quoted are in \$AUD.

**4. Property Of Goods:**

Full title of goods does not pass to the customer until full payment has been made.

**5. Returns:**

CWSB will pay for freight charges involved in returning any blinds that are manufactured incorrectly, however we are unable to compensate financially for any other cost related to faulty product, such as installation costs. The prices in this booklet are a guide only, and do not contain a margin for compensation.

The final selling price adopted by any firm is at its own discretion based on the firm's individual overheads and required profit. The potential cost of additional service calls and installations are to be included in these overheads and should always be considered when preparing quotations.

**6. Claims:** No claims will be recognized after 21 days from the invoice date.

**7. Delays:**

CWSB will not be liable for any direct or indirect loss suffered by the customer due to unforeseen manufacturing delays.

**8. Variations:**

All variations to orders, if product has been processed but not dispatched, relevant costs will be assessed and charged.

**9. Order Placing**

To reduce the responsibility of errors it is advisable and preferred that you use CWSB order form (Excel worksheet) & email to [orders@cwsb.com.au](mailto:orders@cwsb.com.au)

In the event that you do not supply all relevant information, the following will be assumed.

- a. All blinds are face fixed
- b. Blinds that are side by side do not require lining up
- c. All sizes provided are make size – no deductions will be made
- d. The control side will be right hand
- e. No optional accessories are included

# TERMS AND CONDITIONS

All orders placed with [Creative Wholesale Blinds](#) (CWSB) will only be accepted to these terms and conditions of sale. CWSB may at any time change these terms and conditions and send notification to the customer. The prices given in the price list relating to specific products should be read as terms and conditions.

## **1. Orders**

All orders should be completed on an order form provided by us and emailed to our team. Verbal orders will NOT be accepted. Orders received prior to 4:00pm will be processed the same day.

If a customer cancels any order for made to size blinds at any time after CWSB has received the order, then CWSB reserves the right to charge the customer for the costs of materials and labour expended to the date of such cancellation or alteration.

## **2. Sizes**

Unless otherwise stated it is assumed all orders are "finished sizes" and state **width x drop**.

## **3. Prices**

Prices stated do not include any applicable goods and services tax (GST) or the applicable tax duty payable. All these mentioned taxes should be paid by the customer as an additional charge.

## **4. Terms Of Payment**

unless otherwise stated on the invoices, all prices are strictly NET pricing. The granting of credit to customers shall be at the discretion of CWSB and unless otherwise authorised by CWSB, the customer shall make payment 30 days from invoice.

## **5. Inspection**

The customer shall examine and inspect the products immediately after delivery and CWSB shall not be held liable for any incorrect delivery.

## **6. Returns**

No returns will be accepted unless authorized by CWSB. When a remake of a product is requested, it will be invoiced at the normal price and upon return of a faulty product, if it is established to be CWSB error, a credit will be issued.

## **7. Property & Risk**

Property in any given products shall remain with CWSB until the customer has paid and discharged any other debts with CWSB on account (including all goods and services tax levies and duties). The risk in the product shall pass to the customer upon delivery.

CWSB reserves the right, where there has been a default in payment, to enter any premises without notice where any of the goods are kept and repossess the goods as its own property.

## GENERAL INFO - ROLLER BLINDS

### 1. Measurement of Roller Blind

All our roller blinds will be manufactured in width as outside to outside of the bracket measurement.

If you specify a recess fit, you need to make the required allowance and the blind will be made accordingly. The width you provide will be outside of bracket to the outside of bracket.

### 2. Roll Direction

Unless otherwise specified on your order, all blinds will be made as standard or back roll, also known as under roll. This means the fabric is coming off the back of the roller closest to the window.

### 3. Blind Control

All blinds come standard with chain control and metal chain. Plastic chains are also available at no extra cost. Available chain control colours are White, Sandstone, Grey and Black.

### 4. Blind Sizes

Minimum blind width for a chain operated blind is 150mm. The maximum blind width we recommend is 3000mm. Any sizes larger than the recommended width will not be covered under warranty.

### 5. Fabric Railroad and Joining

If the blind ordered is wider than the fabric roll width, it must be railroaded(turn around). **Railroading of fabric voids the warranty.** This often causes curling or cupping on the sides of the blind. We do not guarantee that this will go away entirely over time so please make your customer aware. Also, if the drop of the blind ordered is longer than the railroaded fabric width, it will be joined. The join is sewn and therefore light pinholes may appear across this join.

### 6. Warranty

The width : drop ratio must be **1:3**. Any longer drops will not be covered under warranty

# WARRANTY

**Creative Wholesale Blinds (CWSB)** has a long tradition of manufacturing premium quality window furnishing across Australia.

CWSB Blinds come with a 12 month warranty across the entire range of products, covering component failure and manufacturing issues.

## What the Warranty Covers

This warranty covers the repair or replacement of any defective material or component in CWSB's Blinds. CWSB provides a manufacturer's warranty blinds will be free from defects in material and workmanship under normal wear and tear for a maximum of 12 months from the date of CWSB invoice.

Our products come with guarantees that cannot be excluded under the Australian Consumer Law. You are also entitled to have the product repaired or replaced if the product is defective.

Minor failures to comply with a consumer guarantee can normally be fixed or resolved in a reasonable amount of time.

This warranty is valid when payment for the CWSB blind has been paid in full and proof of purchase is provided to CWSB.

## Exclusions to the warranty

This warranty supercedes all previous and existing materials relating to warranties published by CWSB. All installation, return and ancillary costs are the sole responsibility of the retailer.

### The Warranty does not cover:

- a. products that are requested outside recommended sizes published in the CWSB pricelist
- b. Railroading fabric or Any puckering caused by the fabric railroading
- c. any conditions caused by normal wear and tear
- d. alterations and repairs to the product not carried out by an authorised person, water damage, accidents, misuse or incorrect installation
- e. exposure to the elements (sun damage, wind or rain), discolouration over time
- f. exposure to chemicals, and any type of corrosive element such as, cleaning products, insects, marine environments and salt air
- g. any damage resulting from exposure to high moisture and high humidity environments (resulting in mould, mildew or fungal growths) e.g. kitchens, bathrooms & condensation damage
- h. Products larger than the sizes stated in our Interior Pricelist are generally not covered by warranty.  
We will repair such products at a cost
- i. the cost of access equipment (e.g. Scaffold, cherry picker, scissor lift, etc.) or electrical works necessary for repairs

This warranty is not transferable, and only the original purchaser of the products can make a claim under this warranty.

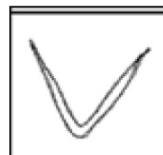

Claims made against transit damage, short supply or visible defects to the products, must be reported within forty-eight (48) hours of receipt of goods, and be accompanied by photographic evidence for assessment by CWSB.

# WARRANTY

## Important information for you and your customer

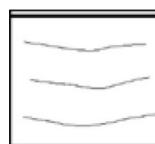

### Fabric "V"ING

Large width roller blinds larger than 2400mm and/or drop longer than 2400mm, could show the effect of "V'ing. This effect is predominant on all large blinds. To reduce this effect, consider splitting the blind into smaller widths and/or multi-linking blinds together. Roller blinds with a 3:1 size ratio, i.e. drop should not be 3x longer than the width due to potential fabric cupping and tracking may be void of warranty.

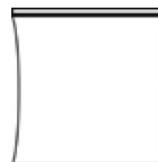

### Patterns

Textured or directional fabrics may not have the warp (vertical) or weft (horizontal) yarns travelling perfectly perpendicular to each other. Some deviation from the pattern or texture will exist. You should expect to see variations of up to 30mm in the direction of the pattern from one side of the blind to the other.

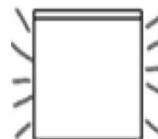

### Railroading and Cupping

Selected fabrics can be railroaded. Railroading fabric often leads to curling or cupping of the outer edges of the blind. Railroading of the fabric changes the appearance of the blind, which is more pronounced in textured fabrics. Cupping of fabric at the outer edges of the blind is more pronounced on wider width roller blinds.

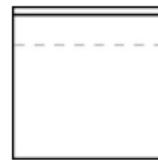

### Light Gaps

All roller blinds allow light to pass around the sides of the fabric (even when blockout fabric is used). This is because the overall width of the blind including its brackets is always wider than the fabric width. Light Gaps are most prominent when a blind is fitted inside a window recess. Face fitting may be a better option than reveal fitting, however, the only way that light gaps can truly be minimised is to use hardware systems that utilise side channels.

### Fabric Joins

Some roller blind sizes may require fabric to be joined. Depending on the fabric and type of join used, this may result in either visible pinholes through the join, or a solid band across the width of the join. Please refer to the CWSB pricelist for specific details of fabric joins.

### Puckering

Some wider width roller blinds will exhibit a deviation across the width of the fabric at the base rail.

# Roller Blinds - Specification & Options

## General Options

All blinds manufactured with ACMEDA componentry and manufactured without side hems.

### **RB09 Chain Winder & Idler, Bracket:**

Color - Black, Pure White, Sandstone, Silver Grey

## Bottom Rail

# ROMAN BLINDS

## Standard Features

Roman blinds come standard with cord, cleat, pulley and brackets ready for hanging. If the blind requires more than one width of fabric, the blind will be made with a full width centre panel and smaller pattern matched panels on either side. Heavy duty cord lock and Chain drive are optional.

If the Romans are side by side with the same drop, the panels will be equal and lineup. If the side by side Romans have different drops, the panels will not be equal or line up. Line-up of side by side Romans have a maximum tolerance of +/- 5mm.

All roman blinds settle after installation. The type of fabric, its weight and size of the blind will affect the extent to which the blind settles out. As this is unpredictable, the final drop may vary by up to 20mm.

Roman blinds need an operation clearance around the sides and top of the blind. This will allow light to pass around the sides of the blind. To reduce this effect, consider making the blind wider than it needs to be when face fitting.

## Measurements

Please make sure that all measurements are finished sizes. We will not make any deductions. Batten spacing will vary depending on the drop of the blind. We manufacture blinds with Even panel spacing and do not cut corners by varying the bottom panel.

Please note that we do not recommend recess fit for Roman Blinds, due to the fact that the blinds drop by as much as 20mm.

## Fabrics

All care is taken to identify flaws in fabrics. However, we request that all customer supplied fabric is checked by your store before sending to Creative Wholesale Blinds. We will not take responsibility for faulty fabric that has been cut.

Customer supplied fabric must be clearly marked with face and direction. If the fabric has not been marked then it will be cut at our discretion and we will take no responsibility.

Check and Stripe fabrics can be off grain, please keep this in mind when ordering. We do not take any responsibility for fabric that is off grain. Horizontal stripes are not recommended.

## Swag Base Fabric Allowance – Extra 800mm To Drop

Heavy duty cord lock- \$20 each

Headboard – 42mm or 65mm MDF add \$12 per meter.

## Returns

Where a remake of the product is requested, it will be invoiced at the listed price. Upon return of the faulty product, a credit will be issued if established to be a Creative Wholesale Blinds error.

If for any reason the blind has to be returned to our factory, we ask that it be repacked and returned in the same way that it left our factory.

All warranty claims must be returned to our factory for inspection.

	3000	339	367	395	424				

### Standard Features

- All prices include Chain Operation
- Bonded to ivory polyester
- Plain & Fancy Finishes available (refer to bonded blind notes)
- Chain Drive is recommended
- Reverse roll is not recommended and is not warranted by Creative Wholesale Blinds
- Creative Wholesale Blinds does not guarantee these fabrics for Bonding:
- Silks, Chintz, Rayon or Back Coated fabrics

### Options

- Bonded insert \$35 per metre
- Rouched insert \$40 per metre

### Fabric Requirements

- Finished drop plus 400mm to 700mm, plus pattern repeat.
- Fabric policy for Plasticised fabrics

### Creative Wholesale Blinds will not accept responsibility for:

- Incorrectly selected face and direction when fabrics are not marked by the client.
- Suitability of fabrics selected by the customer for the manufacturing of soft furnishings
- Goods manufactured in fabric incorrectly supplied by the fabric wholesaler.
- The quality and suitability remains the responsibility of the customer.
- **Shrinkage** - all care will be taken but no responsibility will be taken by Creative Wholesale blinds.
